# International Pediatric Neurosurgery Fellowship at Cincinnati Children's Hospital

- Cincinnati Children's Neurosurgery Department offers every year a position as International Clinical Pediatric Neurosurgery Fellow.
- The International Pediatric Neurosurgery Fellowship is a stipend, 12-month program intended to provide a focused, dedicated pediatric neurosurgical experience, both clinical and academic. The expectation is that the graduating fellow will pursue a career as a neurosurgeon dedicated to the care of children in their country of origin.

#2 in [Pediatric Neurology & Neurosurgery](#) | Overall Score 95/100

# Curriculum

- The international fellowship will commence in the fall, off cycle from the core fellowship. However, the international fellow [will follow the same curriculum](#) as the chief fellow.
  - Together, they will ensure all surgical cases are covered and assist with management duties.
  - It is expected that the international fellow will complete a research or quality improvement project and submit such work to a national neurosurgery conference.
